# SHUBHAM KUMAR

📞 8178132741  ✉ shubhampp8001@gmail.com  in Linkedin  ⌂ Github

## Education

**Guru Tegh Bahadur Institute of Technology (GGSIPU) (CGPA - 9.26)**              **2021 − 2025**
*Bachelor of Technology in Information Technology*                                          *New Delhi*

## Technical Skills

**Languages**: C++, C, Java, HTML/CSS, JavaScript, SQL
**Developer Tools**: VS Code, Git
**Technologies/Frameworks**: React.js, Node.js, Next.js, MySQL, MongoDB, Github, Supabase, WordPress

## Experience

**Akai Space**                                                                 **January 2025 − May 2025**
*Front-End Developer Intern*                                                               *New Delhi*

- Led the end-to-end design and development of the official Akai Space website, transforming the company's online presence.
- Collaborated with the Akai Space team to understand business needs and translate them into a modern, user-friendly website.

**Climate Resilient Observing Systems Promotion Council (CROPC)**     **August 2024 − September 2024**
*Front-End Developer Intern*                                                               *New Delhi*

- Led the front-end development of the CROPC website, significantly enhancing user interface design and improving site responsiveness with React.js and Bootstrap.
- Engineered seamless API integrations for real-time weather data and news updates, leveraging Axios and React to provide dynamic content to users.

**EaseMyRoom**                                                                  **May 2023 − August 2023**
*Front End Developer Intern*                                                               *New Delhi*

- Spearheaded the front-end development of the EaseMyRoom platform, enhancing user interface design and optimizing page load speeds to ensure seamless customer experiences.
- Developed dynamic, responsive layouts using React.js and Bootstrap, improving the platform's accessibility and user engagement across multiple devices.

## Projects

**Mind-It: AI-powered Notes with Web Search** | *Next.js, TypeScript, OpenRouter API, Tailwind CSS*       **April 2025**

- Implemented real-time up-to-date web search capabilities by integrating OpenRouter's API and Exa search.
- Enhanced the system architecture to support multiple AI models (Gemini, Llama, Mistral) with model-specific feature toggling, improving user experience and content quality.
- Designed a source citation system for web search results to improve information credibility and transparency.

**DocCollect: Docs and Notes Platform** | *Next.js, TypeScript, Supabase, Tailwind CSS*       **October 2024**

- Developed a full-stack document management app using Next.js 14, TypeScript, Tailwind CSS, and integrated Supabase for authentication, data storage, and file management.
- Implemented document upload, deletion, and categorization features with a note-taking system.
- Built a responsive UI with dark/light mode and smooth animations using Framer Motion.

**CROPC Website** | *React.js, JavaScript, Bootstrap*                                       **August 2024**

- Developed the CROPC website using React.js and Bootstrap for a responsive UI.
- Integrated weather and news APIs with Google Maps to deliver dynamic, interactive content

## Achievements

- Secured an All India Rank of 680 in TCS CodeVita Season 12 (Round 2), one of the world's largest global coding competitions.
- Achieved 1st position in Devathon and 3rd position in Designathon organized by IEEE GTBIT in collaboration with IEEE IIIT-Delhi.
